With experience in all facets of construction field and project management, Our team has the ability to provide knowledgeable planning, administration and service for even the most complex projects.

Our teamwork shows the commitment to each employee, demonstrates our ability to deal with the performance and provide quality assurance to all concerned including customers and our management that legal agreement is effectively managed.

The estimated number of employees under our companies is more than 300 of administrators,engineers, architects, accoutants, supervisors, technicians,skilled workers and interior designers,

Construction is one of the most dangerous occupations in the world. Safety isn't just a word at **AL TAAMEER GROUP**. It's a way of life. From day one, every employee is educated strict policies on safety and all field personnel receive routine training on all industry regulations. Our Company and our employees have even been recognized locally and internationally for their safe practices. Safety is such a priority at **AL TAAMEER GROUP**. That we have a fulltime Safety Coordinator, whose primary function is to manage all safety initiatives, training and incident, reports.

We also retain an independent firm to conduct scheduled and random Safety audits on all job sites.

Should they witness unsafe conditions or work habits, they have the authority to stop the job unit the situation conforms to all regulations. Taking these precautions may seem a bit excessive especially in today's world of cutting costs wherever possible. But we're not willing to take chances with our employees' well-being or our clients' investment.

You might think we'd be content to let our experience speak for itself. is pretty impressive! But at **ALTAAMEER GROUP**, it's about more than our ability to build a great building. It's about truly understanding the markets in which we work and the clients we serve.
